INTRODUCTION AND GOALS

The ACES INTERNATIONAL VIDEO AWARDS is created by Aces Italy, the Italian delegation of ACES Europe, the Federation of European Capitals and Cities of Sport, in collaboration with the Overtime Festival, the national festival of storytelling, ethics and sports journalism, in order to enhance the commitment made by the Administrations in the creation of application promotional videos a Capital/Region/City/Municipality/Community/Island European of Sport and of those produced after obtaining the title, promoting their visibility.

The videos will also be able to represent new productions linked to narration/storytelling on the value force of Sport. An acknowledgment that aims to be a stimulus to the Administrations in the social communication of sports issues through a tool, particularly appreciated by young people, such as the audio-visual one and which aims to promote its dissemination, as it is representative of the push for the regeneration of territories through sport, as well as an expression of quality, merits and skills identified by Aces Europe as eligibility criteria for the various titles.

The ACES INTERNATIONAL VIDEO AWARDS is, in essence, a concrete moment of sharing between Local Authorities and an ideal space for discussion with producers, directors and the public.
